Connecticut River at Montague City, MA - 01170500

May 24, 2023 - May 31, 2023

Streamflow, ft³/s ⓘ

1. Ensure you are viewing the Streamflow in ft³/s (circled in red)
2. The dot (circled in red) moves with your cursor. Move it along the graph to view past data. Having the dot at the end of the graph will give you the latest river conditions report (circled in red at the top of the graph).
3. Less than 5,000 ft³/s (below the green line) is accessible to all paddlers.
4. 5,000 – 9,999 ft³/s (between the green line and the red line) is recommended for experienced paddlers only.
5. 10,000 ft³/s or more (above the red line) is DO NOT PADDLE.
